

FINNEGAN

Boeing Sheffield supplier information event

Boeing is to open a new manufacturing facility in Sheffield.

Boeing Sheffield will be the first Boeing manufacturing facility in Europe and will manufacture actuation components for a range of commercial aircraft.

Sheffield based J F Finnegan Ltd has been appointed as Boeing's construction partner for this project.

We're holding supplier information morning at the AMRC Knowledge Transfer Centre on 16th January 2018, 10am – 12pm.

There will be an opportunity to meet informally with representatives of Boeing, J F Finnegan Ltd and, of course, the chance to network with other companies at the event.

All potential suppliers are welcome.

Booking details – further information on the next page

Where: The AMRC Knowledge Transfer Centre (KTC), Advanced Manufacturing Research Centre, Brunel Way, Catcliffe, S60 5WG.

When: 16th January 2018, 10am to 12pm.
