

IDC Student Conference 2022

The University of Sheffield's Machining Science IDC (Industrial Doctorate Centre) cordially invites you to the IDC Student Conference

Date: Thursday 12th May 2022

Location: AMRC Knowledge Transfer Centre, Brunel Way, Catcliffe, Rotherham, S60 5WG, UK

Event Type: Hybrid (In-person & Online Attendance/Presentations)

This conference will showcase past and present research of the IDC, and welcomes post-graduate students/researchers — from outside of the IDC— to share their work in a relaxed and inclusive setting. With themes, such as machining tribology and process monitoring, this conference warmly welcomes those involved in the machining and manufacturing sectors

Morning Keynote Speaker: Professor Sam Turner (*CTO of the High Value Manufacturing Catapult*)

Sam works with Catapult centres, and stakeholders, to develop manufacturing strategies for the UK. As a founding member of the AMRC and the Machining Science IDC, Sam has had a major role in the development of the IDC and the AMRC's Machining Group

Afternoon Keynote Speaker: TBC

Conference Schedule (Provisional):

- Wednesday Evening (11th May): Networking Meal* (Venue TBC).
- Thursday Morning: Morning Keynote, Followed by IDC and AMRC Presentations.
- Thursday Afternoon: Free Buffet Lunch, Afternoon Keynote & Guest Presentations.
- Thursday Evening: Food and Drink Social, All Invited (Venue TBC).

*If you are registered to be presenting in-person at the conference, food costs will be covered in full.

If you are interested and would like to attend or present at the conference, please get in touch at machiningconference@amrc.co.uk for further details.
