University of Sheffield /AMRC
Advanced Manufacturing Research Centre

TOMORROW. DONE BETTER.

How to find us

The University of Sheffield Advanced Manufacturing Research Centre

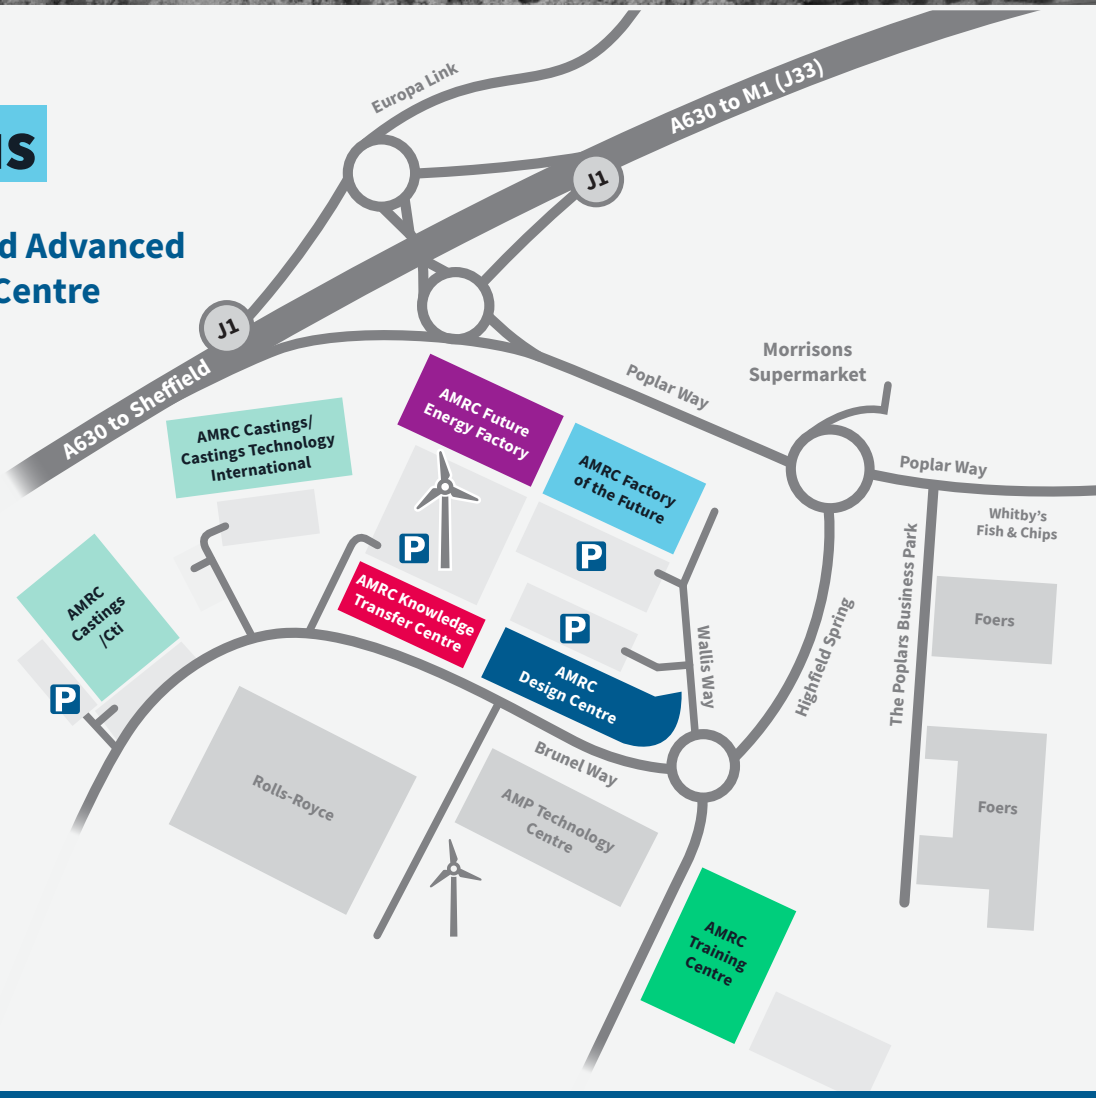

We are located on the Advanced Manufacturing Park (AMP) in South Yorkshire, on the border of Sheffield and Rotherham.

The AMP is just off junction 33 of the M1, and clearly signed from the A630 Sheffield Parkway.

Satnav: please use **'S60 5TZ'** which will bring you to our campus.

You can park in any of our four car parks marked on the map.

Look for our large wind turbine, which is located in the car park of the Knowledge Transfer Centre and Future Energy Factory.
